

Advanced Protection for Extended Spaces

Introducing the Capture LR50, a state-of-the-art 50m Long Range Corridor PIR motion detector designed to provide unparalleled security coverage for long and narrow spaces.

Whether it's a hallway, corridor, or any elongated area, the Capture LR50 ensures you have the most reliable and accurate intrusion detection.

Key Features and Benefits:

- **50m x 2m Coverage:** Designed for long corridors and narrow spaces, offering extensive monitoring capabilities.
- **Quad Element Pyro Sensor:** Ensures precise detection and minimises false alarms, providing reliable security.
- **Wireless Option with Ricochet™ Mesh Technology:** Enjoy the flexibility of wireless installation with *Ricochet* technology, enhancing the robustness and range of your security network.
- **Wall Mounted:** Easy to install at optimal locations for maximum coverage and effectiveness.
- **Flexible Installation:** Versatile mounting options to suit various installation needs and environments.
- **EN50131-2-2 Grade 2*:** Complies with industry standards for security systems, ensuring high-quality performance and reliability.

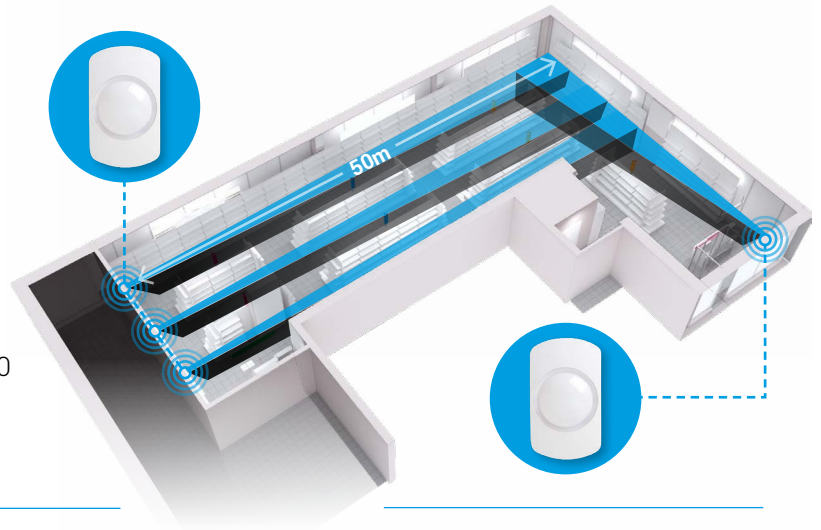

*Self Declared

Ultimate corridor coverage

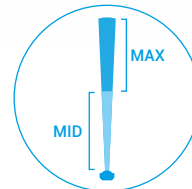

The Capture LR50 Long Range Corridor PIR motion detector offers exceptional coverage with a 50m detection range, perfect for securing long, narrow indoor spaces like hallways and corridors.

Its advanced quad element pyro sensor ensures precise detection, minimising false alarms and reliably identifying genuine threats. Ideal for residential, commercial, and institutional settings, the Capture LR50 provides robust and comprehensive protection for your peace of mind.

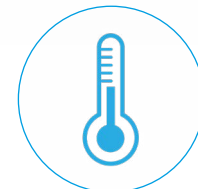

Reliability you can depend on

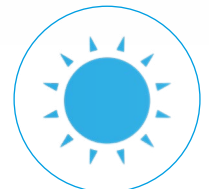

Texecom understand that reliability underpins the fundamental trust in an intrusion alarm system and has developed the Capture range to be our most reliable, most resilient, most robust and most trustworthy range of motion detectors, to date.

Adjustable range sensitivity

Digital temperature compensation

Active white light rejection

Front-loaded fully sealed electronics

Flexible mounting points

Adjustable terminal block

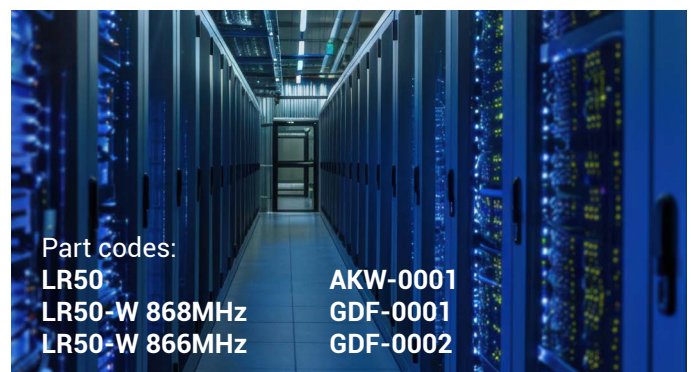

Automatic wireless setup

Install in seconds

Speed up your installations and save valuable time with the Capture LR50. Designed with installers in mind, it features a range of user-friendly elements that make installation and commissioning quick and easy.

Applications

- **Residential Homes:** Protect large living areas, hallways, and entry points with ease.
- **Commercial Offices:** Secure open-plan offices, conference rooms, and storage areas during off-hours.
- **Retail Spaces:** Monitor showrooms and stockrooms to prevent theft and unauthorised access.
- **Warehouses:** Ensure valuable inventory and equipment are safeguarded from intruders.
- **Educational Institutions:** Keep classrooms, libraries, and administrative areas secure.
