

Don't lose sight of your target

INTELLIGENT AUTO-TRACKING

PTZ

Artificial intelligence on board

The new Intelligent Auto-Tracking PTZ cameras rely on Provision-ISR's object recognition technology (DDA Video Analytics™) to find objects of interest on the site (humans, 2-wheeled vehicles, or 4-wheeled vehicles) and to track the object's movement within the field of view.

Available models

The three models included in the series (Z4/Z5/Z6) differ in size, I.R. illumination distance, motor speed, lens zoom, and connectivity options.

Still, they share a unique and recognizable design featuring the now-famous Provision-ISR's red line.

Cross-platform compatibility

Designed for a wide range of applications and needs, Provision-ISR Intelligent Auto-Tracking PTZ cameras provide full compatibility with all Provision-ISR's devices and platforms: Ossia OS, Ossia VMS, and Provision Cam2 Mobile App.

Highlights:

- Artificial intelligence on board
- Auto-tracking option
- Excellent image quality

Technical features

25/30 fps, H.265, 300 Preset Position, Park Action, 4 Pattern, Scan Route and 8 Cruise Lanes , up to 256Gb SD card, Digital WDR, BLC, HLC, 3D-DNR, Privacy mask, Motion detection, 3 streams, IP 67.

General video analytics: Camera tampering

Artificial intelligence: DDA Line crossing, DDA Sterile Area, DDA Object counting and Face detection.
